

## Limited Warranty Supplement

### 25 year product warranty for NE09RH.05

This document confirms that Trina Solar modules of type TSM-\*\*\*NE09RH.05, supplied and listed under Section 1(c)(i) of the Global Limited Warranty, are warranted by Trina Solar for a period of 25 years starting from the Warranty Start Date (as defined in Section 4 of the Global Limited Warranty). During this time, Trina Solar guarantees that the modules will meet quality standards and perform without material issues in materials, workmanship, or manufacturing that would significantly impair their power generation functionality.

The Limited Product Warranty includes coverage for glass breakage, provided the breakage is not caused by external factors (i.e., only breakage due to issues with the glass itself or the module is covered).

The warranty does not cover any changes in the appearance of the modules, including but not limited to scratches, stains, mechanical wear, rust, mold, delamination, changes to the glass coating or appearance (excluding damage), yellowing of EVA or busbars, bubbles that do not affect creepage distance, or discoloration/deformation of anodized aluminum frames. Other changes to the modules occurring after delivery (Incoterms 2020) to the buyer are also not considered issues covered under this warranty.

This Limited Warranty Supplement applies exclusively to TSM-\*\*\*NE09RH.05 modules delivered on or after January 1, 2025 (Incoterms 2020) and installed in the United States or Canada. Any additional warranty terms not addressed in this supplement are governed by the latest version of the Global Limited Warranty, available at Trina Solar Global Limited Warranty. (Website: <https://www.trinasolar.com/us/resources/downloads>).

Yours Sincerely
